

AUGUST 2022

# THE CARAVAN

NOMADS

The National Oil-equipment Manufacturers and Delegates Society

## A word from our president

Dear Fellow Nomads:

There's a lot going on globally: war in Ukraine, global energy crisis, inflation, etc. And a lot going on with NOMADS.

The NOMADS scholarship was awarded to Pari Vachhani, Ranit Windlass' niece. She's an exceptional young woman who will be attending the University of Texas to study biochemistry with a minor in business.

The annual golf tournament next month will replenish the scholarship coffers. To be financially successful, NOMADS needs each member to field a foursome and get 12 company sponsors. Sign up your foursome and have a great time in support of a great cause.

### September Dinner Speaker, Alexandra Mealer

Alexandra is a wife and proud mother of two living in the Houston Heights, a combat veteran, a Harvard JD/MBA and a proud second generation, Hispanic American. Originally from Sacramento, CA, she moved to Houston with her family following her service in the U.S. Army.

It is not the government's job to raise your kids or run your business. It is, however, the government's job to provide a safe and secure community with well-maintained public infrastructure that supports growth and opportunity for all residents. It's time to stand for Harris; County we cannot sit back and watch our community stumble into one crisis after another.
